

FLOWER POT BUNNY

DESIGNED BY CHARLOTTE STOWELL

This pop-up Easter bunny is simple to make and fun to play with!

STORE CUPBOARD

- A cardboard cup
- Scissors
- A lolly stick
- Card
- Sticky tape
- Glue

1 Carefully cut a 3mm slot down the side of a paper cup. Follow along the seam of the cup to help keep a straight line.

2 Glue a strip of card around the top of the cup. 28cm x 3cm fits an average sized cup. Tape the ends where the strip overlaps to hold the card in place.

3 Cut out the bunny shapes from card. Add a face. Glue the head onto the body with a piece of thick card in between, to make the bunny look more 3D.

4 Tape a lolly stick to the back of the bunny then push the lolly stick inside the cup and out through the slot.

5 Glue cut out flowers or other decorations onto the cup.

Move the stick to see the bunny pop up and down!

DID YOU KNOW?

- The Easter Bunny was traditionally a hare, not a rabbit.
